

Effective Behavioral Approaches for Classroom Management

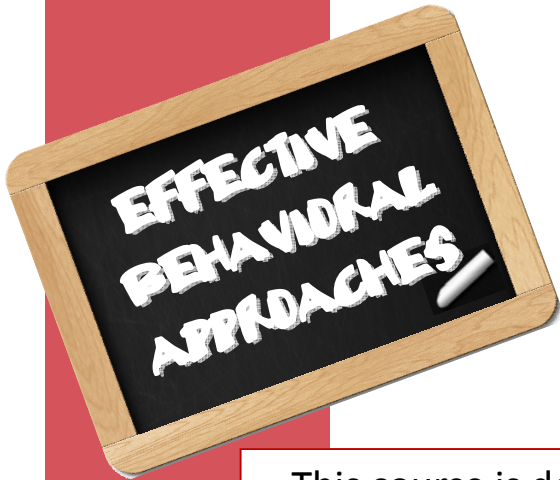

Dates: April 24, May 1, 8, 15 & 22, 2013

Time: 3:45-6:45PM

Location: Pinehurst Elementary Room 133

Instructor: Mary Ann Meegan

Course Audience: Teacher Aides, Teachers and Faculty/
Staff working with students.

This course is designed to provide a variety of Effective Behavioral Interventions that will assist teachers and aides in Classroom Management for both Special Education and General Education students. The focus will be on those approaches that prevent behaviors from escalating and are effective & non-punitive in nature.

15 Hours

\$75.00

Content and Key issues:

-Calming Techniques

-Control Theory

-Effective Communication

-Cooperative Discipline

-The Conflict Cycle

-Behavior Management Systems

The learning environment is greatly impacted when student behaviors prevent teachers from teaching content, specific to the COMMON CORE STANDARDS. Not only is the student who is exhibiting problem behaviors effected, but the ability for the other students to learn is now problematic. When teachers and classroom aides use effective & non-punitive behavioral approaches, the focus becomes more about the learning rather than the behavior.

This course has received approval from the Frontier, Hamburg and Hopevale Districts, and may be eligible for Pro-Growth. In all districts, please seek prior approval to be sure this meets your needs.
