

## Exploring Classroom Management for Children with Special Needs

**Audience:** Teachers and Teacher Aides • **Focus areas:** Classroom Management, Special Education and/or Technology

**Instructor:** Kathy Halter

**Location:** Big Tree Elementary School LMC

**Dates:** Thursdays, April 30-May 21 (attendance at all sessions required)

**Time:** 4-7PM

**15 Hours- \$75.00 fee**

### Description:

Classroom management is an essential part of any classroom. In any given class, you may have students with special needs, students needing to make up work, disruptive students, students without supplies, and that is on a good day. Anyone can see why people in the classroom go home very tired each day.

This 15 hour workshop will give us a chance to discuss and learn some simple ways to help you get through your day. We will discuss time management, working with behaviors, managing emotions, patterns of behavior and take a quick look at technologies that many classroom teachers are using.

### Anticipated learning outcomes:

- Participants will learn how to manage their own emotions as well as help the students they work with on a daily basis.
- Participants will explore and discuss tips for handling various classroom situations.
- Participants will explore technology for assisting students in the classroom.

### PLEASE NOTE:

*This is a Hybrid class; meaning 12 hours of face-to-face instruction and 3 hours online. Online work will need to be completed in-between sessions and discussed during the face-to-face time. You will need to have access to the Internet and a device (tablet, computer, smartphone...) If this is a barrier, please call STC so we can try to work out a solution.*
