

STC Summer Pro-Growth

Due to COVID 19 restrictions prohibiting face to face meetings in school buildings, the Teacher Center is offering several online sessions this summer on the Google Suite.

They are all technology based and can be mixed and matched to meet your individual need for content and professional growth hours. Please be sure to get approval, by your district.

Teachers may take as many sessions as they like for a fee of \$15 per 3 credit hours or take all 4 sessions for \$75. We are hopeful this will add to your professional toolbox and help to enhance your online and classroom experience.
